

ONE MILLION DOLLAR COIN

W H I T E P A P E R

V1

12 June 2021

next edition V2 expected 12 July

OUR PURPOSE

One Million Dollar Coin is not just any coin. We are One Million Dollar Coin (1MDC) and our purpose is to bring wealth to our owners and make their dreams come true. Holders of One Million Dollar Coin are not just holders. They are the owners of 1MDC. The initial goal was to raise the value of our pre-sale price with at least 100000% (x1000).

Together with our community we will make great things happen for our owners, people that support us and those who are in need of help.

Time has learned us that our goals can and should be even bigger. We want to keep increasing the value of our coin while also making dreams of our holders become reality. In this whitepaper we will show you in full detail, how we are planning to make this happen.

OUR PLAN

Every transaction with One Million Dollar Coin has a 15% fee included. This fee will be sent to a secure wallet which is managed by the developers team of One Million Dollar Coin. This 15% fee sounds like a big loss in your initial investment but will actually be the key to the growth of One Million Dollar Coin and thus your investment as well.

One Million Dollar Coin is designed and made for holders. This 15% fee will make it more appealing to hold 1MDC rather than selling at a small profit. We, the team behind One Million Dollar Coin will reinvest this 15% fee directly back into the growth of One Million Dollar Coin. We will use these funds to start marketing campaigns for One Million Dollar Coin. Marketing will let more people know about our coin. This will increase the

demand for One Million Dollar Coin. We will start by focusing on investors who have experience with crypto and DeFi-tokens. Once we have built a decent holders base with this method we will expand our marketing to investors in general. Eventually we want to let everyone know about 1MDC. We will create services to make it as easy as possible for anyone to buy and hold 1MDC.

Besides growing the price by promoting 1MDC and expanding our marketing campaigns, we will also give back to our community directly. We will be doing monthly giveaways with prizes worth \$1,000,000 or more. These prizes can be almost anything our owners would like to have. From cars to watches, from houses to collectibles. You name it and we will give it away.

OUR PLAN

If more people get to know about 1MDC, we will grow our community bigger and bigger.

Our community is our most important asset. We will make it possible for the owners of 1MDC to bring input in the future of their investment. If the community comes up with an idea that will benefit 1MDC and the holders, the developers will try to make this idea become reality. This will make our holders become real owners of 1MDC.

In our whitepaper we will show our marketing plan for the next month. We will update our whitepaper every month so our owners can easily track our marketing plans and give us feedback or input to improve together.

TOKENOMICS

One Million Dollar Coin is a token that has been issued on the Binance Smart Chain network.

The Binance Smart Chain (BSC) is a blockchain network that runs in parallel to the Binance Chain. BSC allows for smart contract functionality and is compatible with the Ethereum Virtual Machine (EVM).

The Binance Smart Chain is well known and already has a great foundation of useful and safe wallets. Metamask, Trust Wallet or Safepal are wallets that have been around for a while and proofed their safety. These wallets have great security to ensure that only you can access your coins and tokens. We recommend using any of these wallets to keep your 1MDC safe.

TOTAL SUPPLY

The current total supply of 1MDC on the date of release of this whitepaper is 562.633.943.938.729 1MDC. The total supply used to be 750.000.000.000.000 tokens but we have already burned 187.932.678.790.142 tokens. The total supply can not increase but the total supply can shrink. Once our locked tokens will unlock, more big burns will happen. This will affect the total supply (in a good way for holders). You can check when the locked tokens will unlock here:

<https://dxsale.app/app/pages/dxlockview?id=0&ad-d=0xF67211A3d17b9977Ff-319daB70038a6c3d09ca01&-type=tokenlock&chain=BSC>

TOKENOMICS

PRE-SALE

During the pre-sale of 1MDC a total of 387.234.000.000 tokens have been sold.

DEVELOPERS TOKENS

The developers have no special wallet or discount at buying 1MDC tokens.

TRANSACTION FEE WALLET

Every transaction has a 15% fee. This fee will be deposited directly into a special wallet that is managed by the developers.

These funds will be used for our marketing campaign and our other goals. Once 1MDC needs these funds, the tokens will gradually be sold to make the impact on the price as small as possible.

MARKETING PLAN

Banners

As you may have noticed we have kicked our marketing campaign off with our digital banners that are visible on different crypto related websites. We have several banners with different looks and sizes running on multiple websites. These banners are focused on attracting new investors that are already familiar with investing in crypto and DeFi tokens. They can direct you to our website or directly towards our telegram group. These banners will stay up on these websites until at least the end of June 2021. After June we will probably keep these campaigns up but also expand towards different websites.

Influencers

We have already had 18 influencers post about 1MDC. We have tried both Instagram stories and Instagram posts. These posts would direct viewers towards our website. There have been general posts and posts about our giveaway (more information about this later). During the month June you will start to see 1MDC on more social media pages of influencers. We are currently talking with several other influencers that might be willing to post about us throughout June. We will continue this marketing strategy for a long time. If you know any influencers that might be suitable for our marketing campaign and willing to post about us, let us know!

MARKETING PLAN

In our whitepaper we will show our marketing plan for this month. We will update our whitepaper every month so our owners can easily track our marketing plans and give us feedback or input to improve together.

GIVEAWAY

1MDC will be doing monthly giveaways with a total value of \$1,000,000. Once you hold 1MDC in your wallet with a value of at least \$50 you are eligible to win a prize in our giveaway. We will be giving our first prizes away once we hit 1500 holders. The first prizes will be:

- A brand new Bentley Bentayga
- A brand new audi RS Q8
- A brand new Range Rover Sport
- A brand new Audi RS Q3

The rules for our giveaway are as follows:

- If you are holding 1MDC tokens worth at least \$50 you are eligible to win during our giveaways
- We tried our best to make this giveaway available for everyone. Unfortunately we are not able to ship the prizes to Iran, Iraq, Cuba, North Korea, Sudan, Syria, Brazil, China, Israel, and Kuwait. If you live in one of these countries and win a prize we will reward you in BNB or 1MDC.
- If you win a car you are not allowed to sell or remove the marketing material from the car for the first 6 months after receiving the car.
- If you have ever sold 1MDC you are not eligible to participate in our giveaways anymore. Our giveaways are for real holders just like how 1MDC is designed.

Once you agree to receive a prize you automatically agree to these terms. If a wallet that isn't eligible wins, we will pick a new winner.

ROADMAP

Launching the coin

Available for sale. Launch of website and social media channels.

Speed 5X

We prepare the launch pad. We fuel the rockets and we set our course for our take-off.

Speed 30X

From now we will spend every month million dollar on marketing. Money can't buy love, but it can get you where you want to go.

Speed 60X

The first major exchange that invites us will receive a donation of \$2.000.000.

Speed 900X

We release our own exchange and wallet. Our community is so strong no one can stop us. We start to conquer the crypto world.

Supersonic engine speed 350X

Our supersonic engines turn on when our ambassador announces himself. He has influence all over the world. The crypto world will be SHOCKED!

Speed 175X

Influencer challenges. Influencers can sign up for our promo campaign. The winners will be rewarded as follows: The first place receives \$3.000.000 worth of One Million Dollar Coin. 2nd place will receive \$2.000.000 and the 3rd place will receive \$1.000.000. MONEY TALKS BABY!

Speed 1000X

You will start to hear people like your uncle talk about One Million Dollar Coin. Gains keep growing and we are getting ready for the next big step.

Conquer the cryptocurrency market

As holders we have enough money and power. We are considered as the majority now. You will find us in every country and even on sea. During our journey we have gained enough experience to go even further. Now it's time to make the best decentralized bank in the world together. We will make best payment solutions for the future.

AUDIT

We had our coin audited and these are the results see below

TechRate

AUDIT COMPANY

1 Million Dollar Coin Smart Contract Security Audit

[TechRate](#)

June, 2021

Background

TechRate was commissioned by 1 Million Dollar Coin to perform an audit of smart contracts:

<https://bscscan.com/address/0xda8259040ed9c7d90e12b3b322bfe10b2eac5430#code>

The purpose of the audit was to achieve the following:

- Ensure that the smart contract functions as intended.
- Identify potential security issues with the smart contract.

The information in this report should be used to understand the risk exposure of the smart contract, and as a guide to improve the security posture of the smart contract by remediating the issues that were identified.

Issues Checking Status

Issue description	Checking status
1. Compiler errors.	Passed
2. Race conditions and Reentrancy. Cross-function race conditions.	Passed
3. Possible delays in data delivery.	Passed
4. Oracle calls.	Passed
5. Front running.	Passed
6. Timestamp dependence.	Passed
7. Integer Overflow and Underflow.	Passed
8. DoS with Revert.	Passed
9. DoS with block gas limit.	Passed
10. Methods execution permissions.	Passed
11. Economy model of the contract.	Passed
12. The impact of the exchange rate on the logic.	Passed
13. Private user data leaks.	Passed
14. Malicious Event log.	Passed
15. Scoping and Declarations.	Passed
16. Uninitialized storage pointers.	Passed
17. Arithmetic accuracy.	Passed
18. Design Logic.	Passed
19. Cross-function race conditions.	Passed
20. Safe Open Zeppelin contracts implementation and usage.	Passed
21. Fallback function security.	Passed
